IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Este informe contiene información muy importante sobre su agua potable.
Tradúzcalo o hable con alguien que lo entienda bien.

County Service Area 70, Improvement Zone W-4, Pioneertown (CSA 70 W-4) Has Levels of Uranium above the Drinking Water Standard

Our water system recently violated a drinking water standard. Although this is not an emergency, as our customers, you have a right to know what you should do, what happened, and what we are doing to correct this situation.

The County of San Bernardino, Special Districts Department, Water and Sanitation Division (Division) routinely monitors for the presence of drinking water contaminants. Water sampled on March 3, 2018 showed Uranium levels of 0-23 picocuries/per liter (pCi/L). Compliance is based on the Running Annual Average (RAA) of results. The 1st quarter 2018 RAA is 21.3 pCi/L. This is above the standard or maximum contaminant level (MCL) of 20 pCi/L.

What should I do?

- **You do not need to use an alternative water supply (e.g., bottled water).**
- This is not an immediate risk. If it had been, you would have been notified immediately. However, some people who drink water containing uranium in excess of the MCL over many years may have kidney problems or an increased risk of getting cancer.
- If you have other health issues concerning the consumption of this water, you may wish to consult your doctor.

What happened? What is being done?

The Division continues to evaluate long-term solutions to this problem and monitors for uranium on a quarterly basis every year as required by County of San Bernardino Environmental Health Service. This monitoring schedule will establish a profile of the groundwater contamination and provide the most conclusive data for resolving this problem.

For more information, please contact Steve Samaras at 760-955-9885 or by visiting the Division office located at 12402 Industrial Blvd., D-6, Victorville, CA 92395.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this public notice in a public place or distributing copies by hand or mail.

Secondary Notification Requirements

Upon receipt of notification from a person operating a public water system, the following notification must be given within 10 days [Health and Safety Code Section 116450(g)]:

- **SCHOOLS:** Must notify school employees, students, and parents (if the students are minors).
- **RESIDENTIAL RENTAL PROPERTY OWNERS OR MANAGERS** (including nursing homes and care facilities): Must notify tenants.
- **BUSINESS PROPERTY OWNERS, MANAGERS, OR OPERATORS:** Must notify employees of businesses located on the property.

This notice is being sent to you by the County of San Bernardino, County Service Area 70 W-4, Special Districts Department, Water and Sanitation Division.
