

**Special Districts** Water and Sanitation

## HOW CAN YOUR FAMILY Solve water?

## KIDS

- Turn off the water when brushing your teeth.
- Keep your showers limited to 5 minutes.
- When you're finished using the water, make sure you turn the faucet off.
- If you see a faucet leaking, tell your parents.

## PARENTS

- Check regularly for leaks.
- Make sure to only run the washing machine and dish washer when there is a full load.
- Use a broom to clean driveways and patios instead of spraying them down.

## OUTSIDE

- Water plants only two days a week, or switch to desert-friendly plants.
- Wash your car using a bucket and an auto-shutoff hose nozzle.
- Recycle your animals water by using it to water shrubs or flowers instead of dumping it out.
