PARK IMPROVEMENTS

SPECIAL DISTRICTS MAKES IMPROVEMENTS TO KESSLER PARK

San Bernardino County Public Works Special Districts Division is continually committed to serving its communities, recently making some improvements and upgrades throughout the County to Recreation and Parks. Some of the enhancements include dog park, parking lot resurfacing and restriping, landscaping, new safety measures, new basketball courts and baseball field and other facilities upgrades.

Lighting Project

- The Park District recently upgraded all interior park lights with new LED lamps. The Park District is excited for this improvement as it enhances patron safety, reduces vandalism and adds to the usability of the park.

Turf and Parking Lot Upgrade

- The Park District initiated a capital improvement project to the border of the park to remove overgrowth and old outdated irrigation and replace with new irrigation lines and an evergreen Bermuda turf. In addition, the split rail fence along the parking lot was painted bright white.
