Nondisposal Facility Element

Prepared for
San Bernardino County
Unincorporated Area

California Public Resources Code (PRC), Sections 41730 et seq, require every California city and county to prepare and adopt a Nondisposal Facility Element (NDFE) for all new Nondisposal facilities, and any expansions of existing Nondisposal facilities, which will be needed to implement local Source Reduction and Recycling Elements (SRREs). A Nondisposal facility is defined as any solid waste facility required to obtain a state solid waste facility permit· except a disposal facility or a transformation facility (PRC Section 40151).

This 2022 NDFE revision identifies the utilization of transfer stations, material recovery facilities (MRFs) and composting facilities as Nondisposal facilities necessary to implement the County's waste diversion goals for the unincorporated area. In 2019, the County obtained approval for Burrtec Waste Clean Mountain sites in Running Springs, Crestline, and two in Lake Arrowhead (1300 Golden Rule Lane and State Highway 18), and in 2021 approval was obtained for Circle Green Tech Park composting facility in the City of El Mirage. Attachment 1(inserted at the end of this document) includes all additional non disposal facilities for this revision 11 to the NDFE with all applicable documentation that was previously provided to CalRecycle.

Tables 1, 2 and 3, attached, identify the existing and proposed Nondisposal facilities the County intends to utilize to implement its SRRE and meet the solid waste division requirements of PRC Section 41780. All active Nondisposal facilities located in the unincorporated area of San Bernardino County are shown on Figure 1. Location maps for these sites are included as Figures 2 through 22.

Due to a change in the process to amend the NDFE pursuant to AB 341 (Chapter 4.5, Statutes of 2011, Chesbro, AB 341) there are no longer specific regulatory requirements for public noticing or approval that a jurisdiction must follow, such as adopting the facility update by resolution at a public hearing or publicly noticing the change.

San Bernardino County has updated and hereby transmits to CalRecycle the County's eleventh NDFE revision. This revision to this NDFE was submitted to the San Bernardino County Solid Waste Task Force. As indicated by PRC Section ·41735(a), the adoption or amendment of this Element is not subject to environmental review under the California Environmental Quality Act (CEQA).

RE: COUNTYWIDE INTEGRATED WASTE MANAGEMENT PLAN, NON-DISPOSAL FACILITY ELEMENT AMENDMENT – LAKE ARROWHEAD, RUNNING SPRINGS, AND VALLEY OF ENCHANTMENT, COUNTY OF SAN BERNARDINO

Dear Mr. Johnson,

The Solid Waste Management Division has received the information attached regarding newly proposed Non-Disposal Facilities to be located in the community of Lake Arrowhead, Running Springs, and Valley of Enchantment within the County of San Bernardino. In accordance with the requirements of California Public Resources Code section 41734.5 and Title 14, California Code of Regulations, section 18753, this letter serves to provide the information to CalRecycle and the Local Task Force. The information attached will be an amendment to the Non-Disposal Facility Element section of the County Integrated Waste Management Plan.

The code referenced above no longer requires the approval or comment on the amendment, however, if you have any questions or require additional information, you may contact me at (909) 386-8701or at darren.meeka@dpw.sbcounty.gov.

Sincerely,
