

COUNTY SERVICE AREA 82

Searles Valley

RATE PRESENTATION

GREG SNYDER

DIVISION MANAGER

THURSDAY, APRIL 2, 2026

"We promote the safety, health and enrichment of the communities we serve by providing essential municipal services along with diverse community-based programs in an efficient and sustainable manner"

OVERVIEW

- Special Districts are created to deliver specialized services essential to health, safety, and well-being of communities. In many areas, communities have no other means of accessing these critical services.
- The Department of Public Works, Special Districts oversees administration, operations, capital improvement and maintenance of 17 water and sanitation Districts throughout the County.
- The last rate increase for County Service Area 82 – Searles Valley was approved by the Board of Supervisors for a 3.5% increase for 2023, 2024, and 2025. Prior to that, customer rates had remained unchanged since 2013, resulting in a prolonged period without inflationary or cost of service alignments.

RATE STUDY

San Bernardino County Special Districts retained NBS Consulting, a California-based public finance advisory firm specializing in municipal utility rate studies and financial planning for local agencies. NBS has extensive experience preparing cost-of-service analyses, long-term financial forecasts, and Proposition 218–compliant rate structures for water, wastewater, and special districts throughout the state.

- NBS evaluated all water and sewer districts for:
 - Cost of providing service
 - Planned capital improvement projects
 - Overall expenses and revenues
- Final Rate Study Report for CSA 82 Searles Valley
 - 2.47% increase/year for 5 years is needed to sustain operations

A link to the Rate Study will be provided in the Proposition 218 notice you will receive in April 2026.

CSA 82 PROJECTS

Project Name	Project Scope	Cost Estimate
North Pioneer Point Septic Tank No. 2	Replacement of existing Septic Tank No. 2	\$275,000
Master Plan	A long-term strategic framework that evaluates current sewer infrastructure, forecasts future demand based on growth, and identifies necessary capital improvements	\$150,000
Sewer Line Replacement Phase 2	Replacement of existing sewer lines	3,250,000

SUMMARY

- Special Districts has a duty to maintain financial health of service areas, and is proposing a modest increase to offset increases to labor, materials, equipment, and additional regulatory obligations
- Proposed rate increase of 2.47%/year for 5 years is recommended to offset rising costs
- Continued cost escalation is placing sustained pressure on both administrative and operational service levels, reducing the District's ability to maintain reliability, regulatory compliance, and long-term system sustainability
